

# TOOLPRO

## PRODUCT SPOTLIGHT

ToolPro Acoustical Lag Screws feature an eye for threading the hanger wire necessary to hang suspended ceilings and a lag thread on the other end for securing in the desired substrate

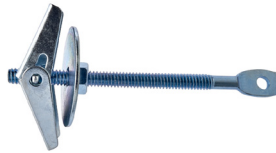

### TOOLPRO

1/4 in. x 2 in.  
Self-Tapping  
Eye Lag Screws  
(100-Pack)

#05025

- Self tapping eye lag screws for attaching ceiling hanger wire to metal joists
- Ideal dimensions for use on ceiling grid tees

### TOOLPRO

1/4 in. x 4 in.  
Eye Lag Toggle  
Assembly  
(100-Pack)

#05020

- Pre-drill hole into the plaster, clay tile or other hollow substrate
- Winged end is inserted through drywall, acoustical tile, etc. and expands behind the surface while the 1/4 in. x 1-1/4 in. fender washer and hex nut secure the anchor on the exterior of the hole

### TOOLPRO

1/4 in. x 3 in.
