Phillips Bit

ToolPro Bit Tips are manufactured from Hardened S2 Steel for powerdriving and measure 1 in. long with a 1/4 in. hex shaft. They are designed for use with drill drivers and work best in combination with ToolPro Magnetic Bit Tip Holders. The handy storage boxes contain 50 bits and can interlock to keep all your bits and drivers in one place.

TOOLPRO 3 in. Magnetic Bit Tip Holder

Part #	Pack Size
TP02142	2-Pack
TP02148	8-Pack in Interlock Box

- Locking C-Ring and neodymium magnet firmly hold all 1/4 in. hex bits while magnetizing the bit to hold fastener for one handed driving
- Can be used with all drills and drivers

TOOLPRO 5/16 in. Nut Setter in Interlocking Storage Box (8-Pack)

Part #	Size
TP60670	1-3/4 in.
TP60680	2-9/16 in.

- Neodymium magnet will firmly hold all 5/16 hex heads for power driving
- Universal quick-change 1/4 in. drive shank

TOOLPRO Drywall Screw Adapter

Part #	Pack Size
TP02152	2-Pack
TP02155	10-Pack in Interlock Box

- Converts any drill into a drywall screw gun
- Countersinks to a perfect depth without tearing or puncturing drywall
- #2 Phillips bit tip with steel collar
